Not Answerable Without Birth Time

- The following require an accurate birth time and cannot be honestly determined from Moon sign alone:
- Lagna (Ascendant), houses, exact career and wealth potential
 - Marriage timing, spouse characteristics, love vs. arranged likelihood
 - Current Dasha / Antardasha and its effects
 - Year-by-year forecast
 - Remedies (should be prescribed only from real chart weaknesses, not guessed)

This is the honest ceiling of what can be said with a Moon sign only. If an approximate or exact birth time becomes available, all of the above become genuinely calculable rather than generic.
