PROFESSIONAL SUMMARY

Third-year Artificial Intelligence & Data Science undergraduate with a working foundation in Python programming and core AI concepts. Zonal-level winner of the Naan Mudhalvan Employability Hackathon, demonstrating strong analytical thinking and problem-solving under competitive conditions. Effective communicator, fluent in four languages, seeking to apply and grow technical skills in AI and data-driven roles.

EDUCATION

B.Tech - Artificial Intelligence & Data Science 2024 - 2028

CMS College of Engineering | Current Percentage: 82%

Higher Secondary (HSC) 2021 - 2023

Government Higher Secondary School | Percentage: 75%

Secondary School (SSLC) 2019 - 2021

Government Girls Higher Secondary School | Percentage: 65%

EXPERIENCE

Employability Hackathon - Naan Mudhalvan (Zonal Level)

- Competed in a multi-level employability hackathon organized by SM Groups (Training Partner of Naan Mudhalvan) and the Tamil Nadu Skill Development Corporation (TNSDC).
- Advanced through 3 competition levels and secured 1st Prize at the Zonal Level.

Symposium Participant - "Power AI"

- Participated in a technical symposium on Power AI, organized by Indra Ganesh College of Engineering, to engage with current developments in applied AI.

SKILLS

Programming Languages: Python (Beginner)

Core Concepts: Artificial Intelligence Fundamentals (Beginner), Data Structures & Algorithms

Core Strengths: Analytical Thinking, Problem-Solving, Communication

Languages Spoken: English, Tamil, Telugu, Kannada
